CUSTOM POWER SUPPLY

100% Made in Italy

CE

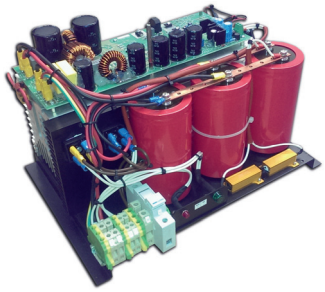
CUSTOMIZABLE FEATURES:
All of our power supplies are realised according to customer's specifications.

We can make simple rectifiers, but also stabilised power supplies with one or various outputs of different voltages and powers.

We can make power supplies with single input/output or with multiple inputs/outputs, also adjustable through potentiometers or others.

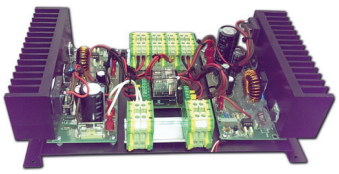
We can encase our creations in closets or containment boxes of various materials and protection degrees

Three-Phase input power supply, output 24VDC 500A in metal box with protections and instruments



30A Stabilized AC-DC power supply with protection, main and load signal

Stabilized AC-DC power supply with double 15A 110VDC output



Duoble channel power supply with two 10A outputs for channel

Three-Phase input power supply, 40A stabilized 24VDC output

DC-DC converter input 110VDC, output 24VDC 10A

DC-DC converter input 9-18VDC output 48VDC
